

chapter1_example8

RHS=2418

Solving by trial and error yields the following, where LHS is the left-hand side of the equation

Tw	LHS
470.0	2339
480.0	2394
490.0	2449
485.0	2422
484.5	2419

The Surface temperature is 484.5 degree R = 24.5 degree F
