

Result=

word number to binary address is as follows:

0.

0

word number to binary address is as follows:

1.

1

word number to binary address is as follows:

2.

10

word number to binary address is as follows:

3.

11

word number to binary address is as follows:

4.

100

word number to binary address is as follows:

5.

101

word number to binary address is as follows:

6.

110

word number to binary address is as follows:

7.

111

word number to binary address is as follows:

8.

1000

word number to binary address is as follows:

9.

1001

word number to binary address is as follows:

10.

1010

word number to binary address is as follows:

11.

1011

word number to binary address is as follows:

12.

1100

word number to binary address is as follows:

13.

1101

word number to binary address is as follows:

14.

1110

word number to binary address is as follows:

15.

1111
