# Contents

List of Scilab Solutions	4
1 Analog Modulation and Demodulation Schemes	8
2 Digital Modulation and Demodulation Schemes	13
3 Performance analysis of Digital Communication System	17
4 Generation of Waveforms	20
5 Properties of Signals and Systems	26
6 Convolution	33
7 Correlation	36
8 Finding DFT and IDFT using FFT	39
9 Design of FIR filters	42
10 Design of IIR filters	45
11 Error control Codes	48
12 Basic Image Processing Operations	53
13 2D Convolution	64
14 Image Transforms -DFT,DCT and DWT	70

# List of Experiments

Solution 1.1	Perform the following Analog Modulation Scheme on Binary Data . . . . .	8
Solution 2.1	Perform the following Digital Modulation Scheme on Binary Data . . . . .	13
Solution 3.1	Measure the Performance of Communication System in term of Bit Error Rate . . . . .	17
Solution 4.1	To generate basic discrete signal used in Digital Signal Processing . . . . .	20
Solution 5.1	Property of Signal and System . . . . .	26
Solution 6.1	Perform Linear and Circular Convolution Operation on Two Discrete Sequences . . . . .	33
Solution 7.1	Perform Correlation Operation on Two Discrete Sequences . . . . .	36
Solution 8.1	Perform DFT and IDFT of discrete signal . . . . .	39
Solution 9.1	Design the following FIR filters with the given specification . . . . .	42
Solution 10.1	Design the following IIR filters with the given specification . . . . .	45
Solution 11.1	Perform the Linear Block Coding on binary Data . . . . .	48
Solution 12.1	Perform the following basic image processing operation on digital image . . . . .	53
Solution 13.1	Perform the 2D Convolution on digital image . . . . .	64
Solution 14.1	Perform the Following Transform on Gray Scale Image . . . . .	70
Solution 15.1	Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	78
AP 1	Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	88

# List of Figures

1.1	Perform the following Analog Modulation Scheme on Binary Data . . . . .	11
1.2	Perform the following Analog Modulation Scheme on Binary Data . . . . .	12
1.3	Perform the following Analog Modulation Scheme on Binary Data . . . . .	12
2.1	Perform the following Digital Modulation Scheme on Binary Data . . . . .	16
3.1	Measure the Performance of Communication System in term of Bit Error Rate . . . . .	19
4.1	To generate basic discrete signal used in Digital Signal Processing . . . . .	24
4.2	To generate basic discrete signal used in Digital Signal Processing . . . . .	25
4.3	To generate basic discrete signal used in Digital Signal Processing . . . . .	25
5.1	Property of Signal and System . . . . .	30
5.2	Property of Signal and System . . . . .	30
5.3	Property of Signal and System . . . . .	31
5.4	Property of Signal and System . . . . .	32
5.5	Property of Signal and System . . . . .	32
6.1	Perform Linear and Circular Convolution Operation on Two Discrete Sequences . . . . .	35
7.1	Perform Correlation Operation on Two Discrete Sequences . . . . .	38

8.1	Perform DFT and IDFT of discrete signal . . . . .	41
9.1	Design the following FIR filters with the given specification .	44
10.1	Design the following IIR filters with the given specification .	47
12.1	Perform the following basic image processing operation on digital image . . . . .	57
12.2	Perform the following basic image processing operation on digital image . . . . .	58
12.3	Perform the following basic image processing operation on digital image . . . . .	59
12.4	Perform the following basic image processing operation on digital image . . . . .	60
12.5	Perform the following basic image processing operation on digital image . . . . .	61
12.6	Perform the following basic image processing operation on digital image . . . . .	62
12.7	Perform the following basic image processing operation on digital image . . . . .	63
13.1	Perform the 2D Convolution on digital image . . . . .	66
13.2	Perform the 2D Convolution on digital image . . . . .	67
13.3	Perform the 2D Convolution on digital image . . . . .	68
13.4	Perform the 2D Convolution on digital image . . . . .	69
14.1	Perform the Following Transform on Gray Scale Image . . .	73
14.2	Perform the Following Transform on Gray Scale Image . . .	74
14.3	Perform the Following Transform on Gray Scale Image . . .	75
14.4	Perform the Following Transform on Gray Scale Image . . .	76
14.5	Perform the Following Transform on Gray Scale Image . . .	76
14.6	Perform the Following Transform on Gray Scale Image . . .	77
15.1	Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	81
15.2	Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	82
15.3	Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	83

15.4 Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	84
15.5 Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	85
15.6 Perform the Various Edge Detection Methods on Gray Scale Image . . . . .	86
