# Book Description

**Title:** Heat Transfer

**Author:** K. A. Gavhane

**Publisher:** Nirali Prakashan, Pune

**Edition:** 10

**Year:** 2010

**ISBN:** 8190639617

Scilab numbering policy used in this document and the relation to the above book.

**Exa** Example (Solved example)

**Eqn** Equation (Particular equation of the above book)

**AP** Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.

# Contents

List of Scilab Codes	4
2 Conduction	5
3 Convection	48
4 Radiation	96
5 Heat Exchangers	114
6 Evaporation	149
