codes written in it can be downloaded from the "Textbook Companion Project"
section at the website <http://scilab.in>

Book Description

Title: Fluid Mechanics With Engineering Applications

Author: R. L. A. Daugherty And J. B. A. Franzini

Publisher: McGraw - Hill

Edition: 8

Year: 1985

ISBN: 0076662673

Scilab numbering policy used in this document and the relation to the above book.

Exa Example (Solved example)

Eqn Equation (Particular equation of the above book)

AP Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.
