Book Description

Title: A Comprehensive Textbook Of Applied Physics

Author: M. Kumar

Publisher: Abhishek Publication, Chandigarh

Edition: 1

Year: 2009

ISBN: 978-81-8247-226-6

Scilab numbering policy used in this document and the relation to the above book.

Exa Example (Solved example)

Eqn Equation (Particular equation of the above book)

AP Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.

Contents

List of Scilab Codes	4
1 Waves and Vibrations	5
2 Application of Sound Waves	10
3 Principles of Optics	15
4 Electrostatics	21
5 Electricity	31
