# Book Description

**Title:** Fluid Mechanics

**Author:** I. A. Khan

**Publisher:** Holt Rinehart & Winston, New York

**Edition:** 1

**Year:** 1987

**ISBN:** 0030714737

Scilab numbering policy used in this document and the relation to the above book.

**Exa** Example (Solved example)

**Eqn** Equation (Particular equation of the above book)

**AP** Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.

# Contents

List of Scilab Codes	4
1 Fluid Properties	5
2 Fluid Statics	11
3 Fluid Kinematics	21
4 Fluid Dynamics	26
5 Fluid Momentum	32
6 Dimensional Analysis	39
7 Fluid Resistance	42
8 Laminar Flow	46
9 Turbulent Flow in Pipes	50
10 Open Channel Flow	60
11 Compressible Flow	71
12 Turbomachines	75
