# Book Description

**Title:** Introduction To Chemical Engineering

**Author:** S. K. Ghoshal, S. K. Sanyal And S. Datta

**Publisher:** Tata McGraw Hill Education Pvt. Ltd., New Delhi

**Edition:** 1

**Year:** 2006

**ISBN:** 0-07-460140-7

Scilab numbering policy used in this document and the relation to the above book.

**Exa** Example (Solved example)

**Eqn** Equation (Particular equation of the above book)

**AP** Appendix to Example(Scilab Code that is an Appednix to a particular Example of the above book)

For example, Exa 3.51 means solved example 3.51 of this book. Sec 2.3 means a scilab code whose theory is explained in Section 2.3 of the book.

# Contents

List of Scilab Codes	4
1 Introduction	5
2 Physico Chemical Calculations	19
3 Material and Energy Balances	42
4 Flow Of Fluids	69
5 Heat Transfer	83
6 Mass Transfer	96
7 Chemical Kinetics	111
8 Measuring Devices	120
9 Computers and their application	129
